The screenshot shows a course card for "DIGITAL WOMANIST". On the left is a thumbnail image of a woman pointing at a screen with the course logo. The main text area contains the following information:

DIGITAL WOMANIST

The **DIGITAL WOMANIST project** integrates the results achieved through the KA2 Strategic Partnership for Higher Education project entitled "Digital Humanist", enriching its innovative, didactic scope through the development of skills related to new virtual, immersive, interactive and gamified digital technologies.

In this way, we intend to specialize the female humanistic students of the European partner universities by equipping them with hard skills related to augmented and virtual reality, gamification, app and minigame development, to facilitate women's access to STEM study fields, with particular reference to ICT, increasing their digital skills and their employment opportunities in the labour market which still suffers severe gender imbalances, which penalize the female segment and, even more, women from humanistic studies and disciplinary fields.
